

ADILENE GARIBAY

Dallas, TX • adilenegaribay2@gmail.com • adilenegaribay.github.io/knowledge_mining

PROFESSIONAL SUMMARY

Data-driven professional with experience in clinical research coordination, assessment, technology implementation, and student success support. Pursuing a Master’s in Social Data Analysis with hands-on training in R, data visualization, AI-assisted research, and knowledge mining. Skilled in building data tracking systems, creating dashboards, and translating complex data into actionable insights. Experienced with Handshake, SPSS, Excel (pivot tables), IRB/FERPA compliance, and cross-functional collaboration in higher education settings. Experienced across multiple data collection methodologies including archival and administrative data retrieval, instrumental and survey-based data collection in clinical research settings, and large-scale data acquisition via web scraping and public government databases. Committed to student career readiness with direct experience designing workshops, connecting students to resources, and partnering with faculty to deliver impactful campus programming.

EDUCATION

M.S. Social Data Analysis and Research — University of Texas at Dallas 2025 – Ongoing
Relevant coursework: Data Collection & Production (R), Data Visualization (ggplot2, interactive content), Quantitative Methods (regression, hypothesis testing), Knowledge Mining (LLMs, RAG, agentic AI, responsible AI, prompt engineering).
Serves as project coordinator for graduate-level group research, building GitHub repositories to track progress, manage version control, and document work products.
Project Portfolio & Work Samples: adilenegaribay.github.io/knowledge_mining

B.S. Political Science — University of North Texas at Dallas May 2024

PROFESSIONAL EXPERIENCE

Legal Assistant — Garza Legal Group LLC November 2025 – Present
Supported an IPO for the attorney, including converting PDF trade reports to structured Excel workbooks and liaising directly with Baker Tilly (external accounting firm) to ensure data was formatted to their specifications for financial reporting. Led full migration from internal server to new legal software, building a structured data filing system for the firm. Designed comprehensive tracking systems for client documents, invoices, and financials across multiple platforms; built Excel pivot table workbooks to surface missing financials and drive data-informed decision-making.

Clinical Research Coordinator — Dallas VA Medical Center June 2024 – November 2025
Coordinated clinical trials ensuring regulatory compliance with FDA and VA standards. Managed patient data, consent documentation, and IRB records with strict FERPA-adjacent data privacy practices. Collected, organized, and reported quantitative and qualitative metrics in support of institutional research and external reporting goals.

Writing & Statistics Tutor — UNT Dallas Learning Commons August 2023 – May 2024
Delivered individualized tutoring in statistics, academic writing, and professional document preparation — including resume development and personal statements for students pursuing employment or graduate school admission. Facilitated SPSS workshops covering data cleaning, analysis, and interpretation. Collaborated with faculty to align tutoring support with course expectations, reinforcing data literacy and contributing to improved student outcomes.

ACADEMIC PROGRAMS & CAMPUS LEADERSHIP

McNair Scholar — UNT Dallas December 2022 – May 2024
Conducted original research on Human Capital Theory & Hispanic Educational Attainment using SPSS (t-tests, multiple regression, multivariate analysis). Presented findings and policy implications to academic audiences. Provided peer mentorship to incoming McNair Scholars. Gained hands-on exposure to Handshake and UNT Dallas career resources through career development workshops.

Pre-Law Society Secretary — UNT Dallas April 2023
Served as Secretary of a student-led campus organization focused on law school access and career readiness. Designed and facilitated workshops on law school applications, professional writing, and resume-building. Coordinated with faculty advisors and peer leaders to plan events and bring guest speakers to campus, connecting students with attorneys and law students as professional resources.

TECHNICAL SKILLS

Data & Analysis: SPSS, R (ggplot2, tidyverse), Excel (pivot tables, dashboards), data cleaning, regression, multivariate analysis
Technology & Platforms: Handshake, GitHub, CRM systems, LMS familiarity
AI & Emerging Tech: LLMs, RAG architectures, prompt engineering, AI-assisted research workflows
Compliance & Research: FERPA, IRB documentation, program evaluation, survey design, outcomes assessment, APA 7
Soft Skills: Cross-functional collaboration, project management, public speaking, adaptability
